# Department of Technology

Package Code	Package Name	Items	Description of Works/Goods	Qty	Method of Procurement
TEQIP-II/MH/MH1G05/141	Winery waste	Brush type pulper	This Juicer is suitable for Continuous operation and is easy to clean and maintain. These machines also easy to use, drive with 1/2, 1 hp motor	1	Shopping
		Over Head Stirrer	Stirring quantity max. (H2O) [1] - 15 , Motor rating input [W] 70 - 70, Motor rating output [W] - 42, Motor principle Brushless - DC, Speed display - LED, Speed range [rpm] - 0/30-2000, Reversible direction of rotation no - no	1	

		BOD Incubator	<p>Temperature range: 5.0 c to 60.0 c  Control:, Temperature display: Digital LED 3 1/2 digit, Accuracy/ Uniformity: +_ 0.5 c , C. Microprocessor based PID control. Air circulation:. Cooling : CFC free copeland make compressor utilizing R 134A eco friendly refrigerant. with condenser, motor and relay. Heating: U shaped Nichrome wire heater in SS sheathing , Temperature sensor: PT 100, Resolution : 0.1c , with autotune construction: Double wall Outer M.S powder coated, Flange motor with impeller/blower &amp; safety features o Digital High temperature safety cut off o Electrical overload cut off relay for compressor , Time delay for compressors with ON o Feet: Castor wheels o Trays: SS wire mesh heavy duty o Electrical: 230v/15a/50Hz., Chamber illumination: Fluorescent light with door switch, Inner S.S, with insulation, outer door key lockable , inner glass viewing door.</p>	1
